## ***OVER 40 YEARS OF SERVICE***

The doctors and staff of Sound Chiropractic Center have been serving Western Washington for over 35 years. During that time they have taken care of more patients than any other chiropractic group in the Northwest. So many have been able to afford the highest quality care available because of reasonable prices and the Sound Chiropractic Center Patient Payment Plans.

## **RE-OPENING YOUR LABOR AND INDUSTRIES CLAIM**

People usually seek to re-open a worker's compensation claim if they still need help for their injury. The Department of Labor and Industries (DLI) may grant a re-opening of your closed claim and pay for your health care benefits as they did before. They also may deny that opening. In any event, you need the help now and Sound Chiropractic Center would like to assist you. The following guidelines and agreement will help make that possible.

## **INJURED WORKERS CLAIM RE-OPENING AGREEMENT**

Sound Chiropractic Center will help you initiate your request for re-opening of health care benefits by taking the necessary history, examinations and evaluation. As a rule, the DLI will bear the cost of this initial evaluation and take our report on your condition under advisement. No treatment is authorized by the DLI until your claim has been officially re-opened by the DLI.

If you should desire care now, regardless of the outcome of your efforts to re-open your claim, you must establish an account with Sound Chiropractic Center and select a payment plan. If and when the DLI re-opens and pays your claim, Sound Chiropractic Center will refund your personal payments.

I will pay Sound Chiropractic Center for treatment and services the amount of (\$ ) every two (2) weeks on the ( ) and the ( ) of the month until my obligation is paid in full. My first payment is due on ( ).

I realize that there is a finance charge of 1% on balances over 60 days.
