OVER 40 YEARS OF SERVICE

The doctors and staff of Sound Chiropractic Center have been serving Western Washington for over 35 years. During that time they have taken care of more patients than any other chiropractic group in the Northwest. So many have been able to afford the highest quality care available because of reasonable prices and the Sound Chiropractic Center Patient Payment Plans.

THE PERSONAL INJURY CASE

We recognize that some patients are under great physical and financial stress following their accident and are unable to pay for their chiropractic care as it is rendered after their personal injury. Accordingly, Sound Chiropractic Center will not require that you make "out of pocket" payments as you receive your care related to your personal injury case, provided you agree to the following stipulations:

PERSONAL INJURY PAYMENT AGREEMENT

I, _____, give Sound Chiropractic Center the permission and authority to bill any and all insurance plans available to me for the payment of chiropractic care and other services received by myself or others I am responsible for, including the taking and/or reading of x-rays, until all charges billed by Sound Chiropractic Center for such care is paid in full.

In the event the health insurance available to me does not cover all charges for my care at Sound Chiropractic Center,

I authorize any and all responsible parties to pay, from the proceeds of any settlement I may receive, any outstanding balance.

In the event that all health insurance and any settlement I may receive does not cover the cost of my care at Sound Chiropractic Center, I agree to pay the full balance for services rendered over no more than 90 days.
